Better sound.
Whenever. Wherever.

SoundLink™
Bluetooth® Mobile Speaker II

Now take your music everywhere you go!

Play your favorite music stored on your smartphone, tablet or laptop, out loud whenever and wherever you want with sound quality unlike any other Bluetooth speaker this size.

The SoundLink™ II is small enough to grab and go—wherever you go—so your music is always ready to liven up any event, planned or not!

There's nothing to hook up or dock, and the rechargeable battery keeps the music playing for hours.

Portability. Mobility. Durability.

Enjoy deeper, more powerful sound than you thought possible from a speaker this small. The SoundLink *Bluetooth*® Mobile Speaker II works wirelessly with Apple®, Android™ and BlackBerry® devices, or your tablet or laptop—and goes wherever you do for music when you want, where you want.

The integrated bi-fold cover flips open to become a stand and shuts off the speaker when closed.

This sleek and elegant speaker is built to withstand the rigors of daily use like no other product in its category.

Sound unlike any other

Innovative technologies deliver detailed sound with substantial bass notes. Instead of heavy woofers or large ports, specialized passive radiators handle the low frequencies—the only way a speaker this small can produce such deep sound.

Easy wireless connection

Pairing the speaker with your Bluetooth device is simple. Just press and hold the Bluetooth button on the top panel, then choose the SoundLink Mobile Speaker II from your smartphone or other source. Wireless range is about 30 feet.

Play throughout the day

A rechargeable lithium-ion battery keeps the music going strong for up to eight hours, even while you text, e-mail or surf the web.

Choose your look

The speaker comes in two models: Dark Gray nylon cover with brushed chrome trim and Dark Brown leather cover with polished chrome trim. Covers are available in additional colors (sold separately) to suit your style.

Key Features

- **_Bluetooth_® technology**
  enables wireless stereo performance from your smartphone or other source to the SoundLink™ *Bluetooth*® Mobile Speaker II.
- **Compact size**
  lets you take the speaker anywhere; it's small and lightweight enough to carry in one hand or throw in a backpack or travel bag.
